

Healthcare Customer Service Paraprofessional

Get started with our FREE training courses.

Be a patients' first point of contact with the health service system. Healthcare Customer Service Paraprofessionals manage patient access and registration in a management system, answer phones, schedule appointments, process referrals, and field billing questions.

Our **FREE Healthcare Customer Service Paraprofessional** program is a fully-online suite of courses and projects across key topics that prepares you for an entry-level career in the field and paves the way to more advanced training in telehealth, call center, business, and administration.

Start your journey as a Healthcare Customer Service Paraprofessional today. Click [here](#) to learn more.
